Meet & Greet Chaplain Ann

Let's welcome our new chaplain with a little fun.

Chaplain Message

Recent studies from the National Academies of Sciences, Engineering, and Medicine have found that loneliness can increase our risk for serious health conditions. Still, many of us find ourselves lonelier as we age, and it can be daunting to think about forming new relationships! If we dare, we may discover that we are not alone after all. This is the work of spirituality-encountering our connectedness to one another, to creation, and to the source of being. What new connections are you thankful for in your life? Here is a new blessing for new connections from poet, Morgan Harper Nichols:

*Dare to keep your heart open
Allow yourself to be surprised by Hope.
Build a friendship with Courage
and join in to make
new connections on the road ahead.*
